### "B.E.L.T." for Green Building Development and Innovation

#### Join CGBC(HK)

Under the guidance of China Green Building Council (CGBC), China Green Building (Hong Kong) Council (CGBC(HK)) was established in 15 May 2010 as a local chapter in Hong Kong. CGBC(HK) dedicates to promote the development of green building, provide access for professionals from Hong Kong to contribute to the huge green building market in Great Bay Area and the rest of China, extend the international linkage in the future. The mission "**B.E.L.T.**" of CGBC(HK) is as below,

#### **B**ridge

To connect green building associations and related government administrations in mainland China and associate with professional institutions and international academic groups.

#### **E**ducation

To act as a hub to provide professional training and information to serve the professionals from Hong Kong and certify them to be recognized in other cities, provide general education for young generations to foster their engagement in green building industry.

#### **L**abel

To conduct Green Building Labeling (GBL) certification exercise in Hong Kong and mainland China. GBL is an assessment for certifying a green building and provides a recognizable symbol in Hong Kong and mainland China.

#### **T**ransformation

To assist Hong Kong companies expand their capacities and green building related industries to transform and develop green building in the Greater Bay Area, also benefit the society by improving the environment in Hong Kong.

Since its inauguration, the Council has always been serving the building industry, proactively advising the local government and relevant building firms, and advancing the development of green buildings in Hong Kong. In order to promote the growth of green building science and technology professionals, the popularization of green building knowledge and the talent development of green building technology in China, the Council aims at professional and technical training seminars, popular science activities and youth camps of national eco-city summer camps. Lectures cover green building evaluation standards, green building design concepts, policies and regulations.

Our members are the visible embodiment of our commitment to change and improve and your membership means a good deal to us. Please visit our website (<http://www.cgbchk-star.org>) for more information.
